

SPECTRALIS

INTRODUCTION

Spectralis is a galaxy that was discovered by our beloved astronaut Zenia. Here we can find very diverse planets, some very hostile ones in which we will have to defeat monsters that want to attack us, but in return, we will receive great rewards. However, there are also friendly planets, where we can establish our own colonies and cultivate plants that we find. Players will manage their own economy; through their progress in missions, defeating bosses, and unlocking new paths, they will earn rewards in **\$ZENIA**. They will also have the opportunity to stake their coins, thus forming a farming circle.

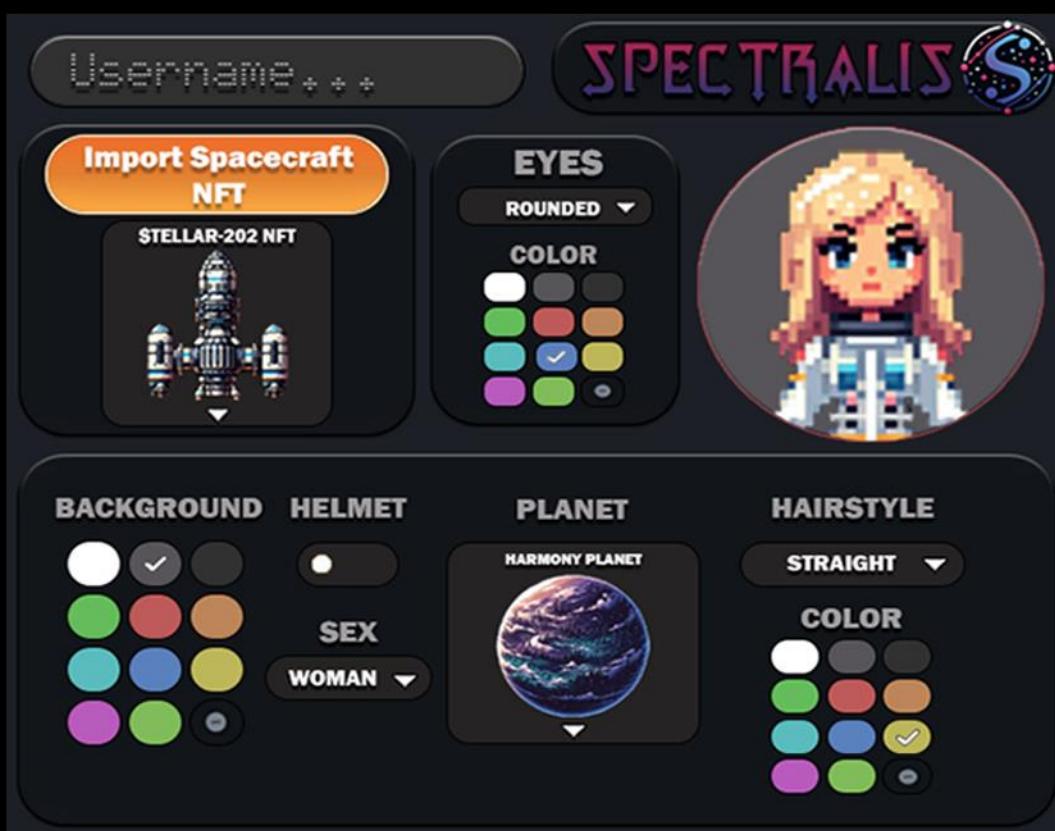

Fun and danger await those who engage in the search for Zenia

SPECTRALIS

CHARACTER CREATION

In this section, players will be able to create their character. They can choose their gender, the type of hair color, eyes, and they can also import their own NFT spaceship if they already have one.

They can choose which world they will be born into, where there are currently four different options: Harmony, Ingenious, Prismatic, and Ravenous. Soon, a section will be added where they can import different types of skins, which they will acquire as they play.

CHAT AND ACHIEVEMENTS

Players will be able to add their friends using their username or the wallet address they use in Spectralis. They will be able to chat freely with their friends and see different types of posts in the activity feed section.

The screenshot displays two main sections of the Spectralis app interface:

CHAT SECTION: This section includes tabs for CHAT, FRIENDS, and CLAN (with 87 notifications). On the left, a sidebar shows player icons with numbers (1, 6, 8) and a 'SPECTRALIS' logo. The main area shows a conversation between Leyla_01 and Lassia24. Leyla_01 messages include "Hey Lassia, goodmorning, how are you?" (09:39), "Ley, oh my gosh, you won't believe the day I had today! I'm beyond excited. I went to the casino and guess what? I won a ZeniaNova with mystical rarity!" (10:21), and "OMG, are you kidding? that's like worth around 40 BNB lol" (10:22). Lassia24 responds with "Check!!! 😊" (10:24). A "Mystic" ZeniaNova #8 is shown with a "Check!!! 😊" button.

ACHIEVEMENTS SECTION: This section is titled "LAST ACHIEVEMENTS". It lists three achievements with rewards:

- FIRST PET:** Find and adopt your first space pet, a curious alien being that will accompany you on your adventures through Spectralis. +\$23.000
- PROGRAMMED PROTOTYPE:** Develop your first automated farm bot, capable of autonomously collecting resources at your mining base. +\$55.000
- BIG WIN IN CASINO:** Acquire a coveted and rare mystical rarity gem at the StellarX casino. +\$110.000

At the bottom of the achievements section is a "SEE ALL" button.

ACTIVITY FEED SECTION: This section shows two messages:

- "Does anyone have 14 carrots to trade with me? \$24.000 Zenia or BNB Equivalent" by a user with a blue icon.
- "I'm looking for a pet with 'Legendary' rarity, if anyone has one, please write to me." by a user with a red icon.

A "Write" button is located at the bottom right of this section.

The Achievements section will be displayed, where as players complete missions, they will earn rewards in

\$ZENIA

LAND IN SPECTRALIS

This is a plot of land in Spectralis, where players will be able to farm and increase their **\$ZENIA** production, as well as obtain numerous NFTs that will provide bonuses to various statistics, both in clan wars and missions against bosses on different planets.

Initially, players will start with a small plot. To increase their production on a large scale, we will be selling plots during the pre-sale stage.

CLAN AND WARS

In the clans section, you will be able to search for an alliance in which to defend your own interests. It will have an implemented system of earned trophies, which will increase the clan's rank and level; the higher it is, the better rewards they will obtain.

GENERAL

There will be galactic clan wars where you can bet money and win \$ZENIA. You will need to find your best ships, recruit new members, and be strategic when facing another clan.

BOSS FIGHT

Boss fights will be enabled, which will give you numerous rewards. You will need to upgrade your equipment to be able to beat stronger beasts.

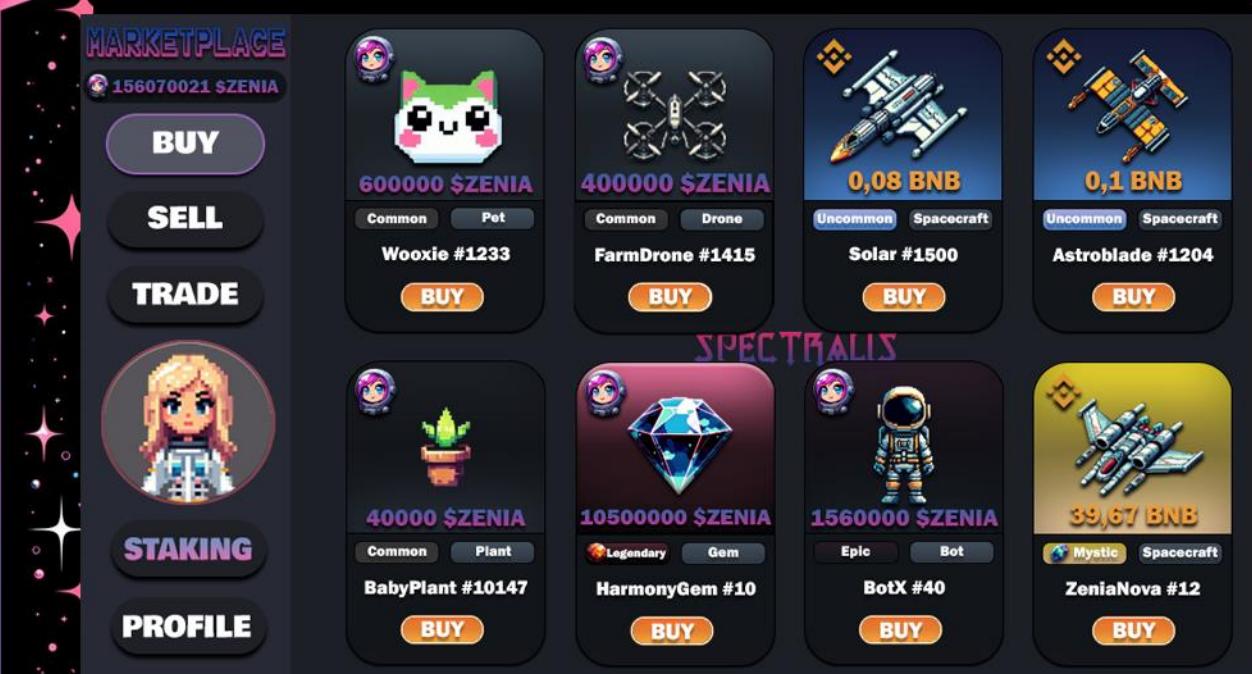

You can also ask your clan friends for help, and fight the boss, but remember that the rewards will be divided.

MARKETPLACE

In the marketplace, players will be able to buy, sell, and trade their in-game NFTs, setting prices they deem fair. We're working on an exclusive chat for exchanges where they can list both NFT items and those only useful in-game.

They'll also have access to the Staking section to lock their coins and receive wonderful rewards in **\$ZENIA**.

This way, a farming cycle will be generated where everyone wins.

GAME PLANETS AND RACES

Harmony Planet

Habitat of the Umbrinos, a mysterious species that lives in the depths of the forests. The Umbrinos accept Zenia with great kindness, sharing with her their ancestral wisdom about the arcane energies that permeate their world.

\$ZENIA

Ingenious planet

Home of the Mechanoids, a race of mechanical beings who have perfected the art of engineering. Impressed by their creativity and skill, Zenia collaborates with the Mechanoids to solve technical problems and improve her own spaceship.

\$ZENIA

Prismatic Planet

Known for its dazzling landscapes filled with crystals and gems that reflect the colors of the rainbow. Here, Zenia encounters the Luminites, a race of bioluminescent creatures that glow with ethereal beauty.

Ravenous Planet

In the Voracious Planet, a desolate world consumed by war and greed, Zenia encounters the Devourers, a violent and ambitious species seeking to dominate all other inhabitants of Spectralis.

With cunning and courage, Zenia confronts the Devourers.

Friendly and curious, the Luminites show Zenia the hidden treasures of their planet, including ancient caves filled with power crystals.

SPECTRALIS

ROADMAP

Stage 1 “Emerge”

- Build Community
- Telegram Group Creation
- Discord Group Creation
- Increase the Spectralis Crew to over 3k Members

Stage 2 “Walk”

- Official Website Launch
- Push Socials and Influencers Campaigns
-  \$ZENIA Token Creation
- Airdrops and Giveaways

Stage 3 “Jump”

- \$ZENIA Pre-sale
- DEX Listing
- Mega Advertising Campaign
- CMC and CG Listing

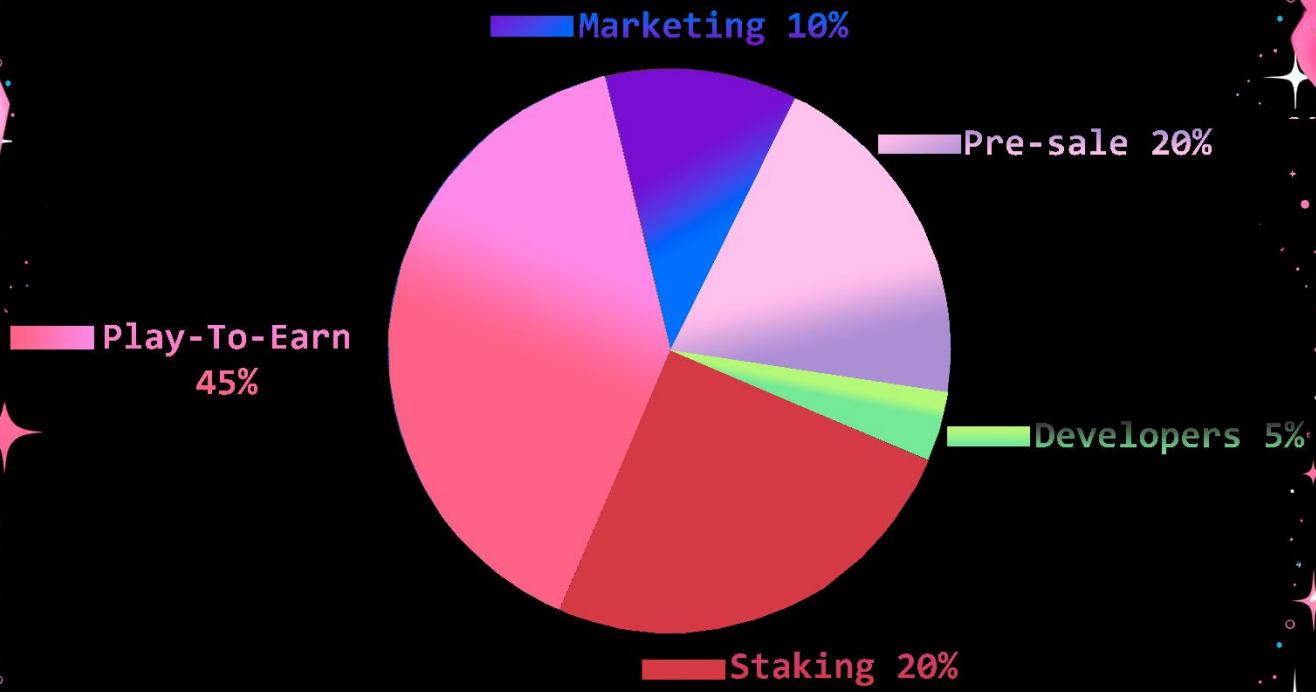

Stage 4 “To The Moon”

- Major CEX Listings
- **GAME LAUNCH**
- Global Marketing Campaign
- Global Expansion
- Long-Term Roadmap Unveiling

DISCLAIMER

You should always consult your own advisors concerning the legal and tax implications in your country of origin and any other aspects regarding any outstanding matters related to how the Spectralis platform is designed and operated before deciding whether a purchase of \$Zenia would be in line with their risk profile. Purchasing \$Zenia involves an element of risk and may lead to the loss of a substantial part or the entirety of the principal deposit advanced. Before purchasing \$Zenia, diligently and thoroughly assess and consider the risks identified in this whitepaper, as well as other risks not included or anticipated in this document. This Whitepaper does not constitute a prospectus and does not constitute as an offer of financial instruments and/or securities to the public or any offer in any way connected to a collective investment scheme. This whitepaper, the \$Zenia and the use, holding and trading of the \$Zenia carry no rights, whether express or implied. \$Zenia does not represent or confer any ownership rights, shares, securities or equivalent rights, intellectual property rights or any other form of participation relating to the Issuer. This Whitepaper does not infer that the information it contains is accurate and complete subsequent to its date of publication or that any information supplied in connection with this whitepaper is completely accurate at any time subsequent to the date on which it is supplied. Crypto assets are not regulated as financial instruments and there is no refund or compensation available from any regulatory bodies. \$Zenia does not give the holder thereof any entitlement to acquire any such interest or entitlement in respect of the Issuer. Furthermore, the Issuer shall not be obliged in any way to return any investment made in virtue of this Whitepaper. Crypto assets can be subject to expropriation and/or theft. Computer hackers or other malicious groups or organisations may attempt to interfere with the Spectralis platform in a number of different ways. Because of the nature of blockchain transactions there may be no remedy if a successful attack by malicious actors was to take place against the BSC Chain that the \$Zenia token is built on. There is a possibility that in the future, certain laws, regulations, policies or rules relating to crypto assets, blockchain technology or decentralised applications may be implemented that affect or restrict token holders' acquisition, ownership rights, and ability to buy, sell, convert or use crypto assets such as the \$Zenia. Notwithstanding anything contained herein to the contrary, you specifically acknowledge and agree that trading and/or transaction in/ with \$Zenia It may entail a risk.

SPECTRALIS

RISKS

Below is a non-exhaustive list of the primary risk factors that the Company considers to be significant in relation to the token's trading and/or use. These risk considerations should be taken into consideration alongside all other information provided in the Whitepaper, and participants are recommended to check with their professional advisers (including their financial, accounting, legal, tax, or technical advisers or experts). The risk of losing access to \$Zenia Tokens due to the loss of private key(s), a custodial error, or a participation error is as follows: A wallet is required for the acquisition, storage, and disposal of \$Zenia Tokens. The participant acknowledges that he is responsible for establishing the Wallet with a third-party provider to retain \$Zenia Tokens and for taking acceptable security measures to protect the wallet. As a result, if the requisite private key(s) associated with the Wallet holding \$Zenia Tokens are lost, the \$Zenia Tokens and any other cryptocurrencies and/or tokens will be lost as well. Additionally, any third party that has access to such private key(s), including through the Participant's Wallet's login credentials, may be able to misappropriate the Participant's \$Zenia Token. Any errors or malfunctions caused by or relating to the Wallet used by the Participant to receive and hold \$Zenia Tokens, including the Participant's own failure to properly maintain or use such Wallet, or caused by the Participant's choice of third-party provider for the Wallet, may also result in the loss of \$Zenia Tokens.

Hacking risk and security flaws: Denial of service attacks, Sybil attacks, spoofing, smurfing, virus attacks and any other similar events that could have an influence on \$Zenia Tokens and the services the Company may offer from time to time may be attempted by hackers or groups of hackers.

The risk of security flaw in the Smart Contract, the Website, or the source code of the \$Zenia Tokens, or in any associated software and/or infrastructure: There is a possibility that the Smart Contract, the Website, or the \$Zenia Tokens may have inadvertent flaws or vulnerabilities in the source code, preventing users from using or losing \$Zenia Tokens. Updates and modifications may have unwanted or unforeseen consequences for \$Zenia Tokens.

Risk of not listing or low/no liquidity: Exchanges may be subject to unclear governmental control, and the Company makes no representations or warranties about exchange service providers. Users, including the participant, may be subject to fraud and failure in connection with those exchanges. There is no guarantee that an active secondary market for \$Zenia Tokens will develop or continue to develop. **Risk of uninsured losses:** Unlike bank accounts or accounts with financial organisations, \$Zenia Tokens are not covered unless the participant buys private insurance particularly for that purpose. There is no public insurer for the loss of \$Zenia Tokens.

Internet transmission risks: There are threats connected with the use of \$Zenia Tokens, including the failure of hardware, software, and Internet connections, as well as other technologies on which \$Zenia Tokens rely. These failures may cause communication breakdowns, mistakes, distortions, or delays when utilising \$Zenia Tokens or the Website.

Risk of price fluctuation: The quotation of the \$Zenia Token can fluctuate, presenting a challenge to model and estimate the future market behaviour even for seasoned cryptocurrency traders. Native cryptocurrencies associated with the internal working of the networks to which the \$Zenia Token is deployed are also subject to fluctuations that directly and indirectly could impact the token's value in the market. The Participant must comprehensively acknowledge the price fluctuation risks of the cryptocurrency market and that still cryptocurrencies are traditionally subject to these significant price fluctuations that are beyond the control of the Company and driven mostly by exterior or market forces. The Participant also recognises their \$Zenia Token value can go down as well as up, and they could lose some or all of their investment.

Other risks: The Participant acknowledges and accepts the inherent risks connected with \$Zenia Tokens, including, but not limited to, risks associated with money laundering, fraud, exploitation for criminal purposes and any other unanticipated dangers. If any of the risks described in the terms are unacceptable to the Participant and the Participant is unable to comprehend them, the Participant should refrain from acquiring, holding, or using \$Zenia Tokens. BY AGREEING TO THESE TERMS AND CONDITIONS AND PARTICIPATING IN THE \$ZENIA PRESALE, YOU ARE WAIVING YOUR RIGHTS. YOU AGREE TO HAVE NO RECOURSE, CLAIM, ACTION, JUDGMENT, OR REMEDY AGAINST Spectralis WE STRONGLY URGE YOU NOT TO PURCHASE ANY \$ZENIA IF YOU ARE UNCERTAIN ABOUT ANYTHING IN THIS WHITE PAPER OR IF YOU ARE NOT PREPARED TO LOSE THE MONEY YOU SPENT PURCHASING \$ZENIA TOKENS
